ABOUT US

HRM PRO is a human resources management information system that fully digitalizes the process of managing human resources within the organizations of «Uzbekistan Railways» JSC.

Through the System, it is possible to register employees, automatically calculate working time and attendance, generate reports electronically and approve them through a multi-stage process, create and sign orders and other documents, and manage everything through a centralized system. Paperless, fast and convenient.

Developer: «Uzbekistan Railways» JSC

PRIVACY POLICY

Last updated: May 2026

Effective date: May 2026

1. Introduction and purpose

This Privacy Policy defines how «Uzbekistan Railways» JSC (hereinafter «We» or the «Company») collects, stores, processes and protects the personal data of users of the HRM PRO human resources management information system (hereinafter the «System»), which it has developed.

By accessing, registering in, or using the System, you are deemed to have fully read this Privacy Policy and to have given your consent to it.

HRM PRO is a closed corporate system, used only by employees who have been registered by the organization and granted the appropriate rights. If you do not agree to these terms, please stop using the System and contact the system administrator.

2. Data collected

2.1 Data entered by the user and the HR department

During the registration of an employee and the maintenance of personnel records, the following data is entered into the System:

- **Personal data** — surname, first name, patronymic, date of birth, gender;
- **Identification data** — passport (ID card) details, PINFL;
- **Contact data** — phone number, email address, place of residence;
- **Education and qualifications** — level of education, specialty, professional development records;
- **Employment data** — position, department, length of service, employment contract, orders;
- **Family and social status** — marital status, number of children and other categories established by law;
- **Working time and attendance** — arrival and departure times, leave, sick leave, days off.

2.2 Automatically collected data

During the use of the System, the following technical data may be collected automatically:

- Device type and operating system version;
- Browser type and system (application) version;
- IP address;
- Date and time of access to the System and of significant actions within it (logs);
- Technical data on errors and malfunctions (solely for the purpose of improving the System).

2.3 Data not collected

We do not collect the following:

- The user's location (GPS);
- Data obtained through cookies and external tracking technologies;
- Microphone or camera data (without permission);
- Data obtained from third-party applications;
- Data for advertising or commercial purposes.

The System does not store passwords in plain text — they are stored in a protected form using one-way encryption (hashing) algorithms.

3. Access to the System and permissions

For the System to function correctly, it may use the following permissions on your device or in your browser:

- **Internet** — to establish communication with the server and exchange data;
- **Push notifications** — to send important messages and notifications;
- **Device status** — to ensure the correct operation of the System.

All permissions are requested solely for the purpose of providing the System's functions. The user has the right to revoke any permission through the device or browser settings.

4. Purposes of data use

The collected data is used only for the following purposes:

- **Personnel records** — registering an employee and maintaining their personal card;
- **Working time records** — automatically calculating attendance, leave and working time;
- **Reports** — preparing personnel reports and multi-stage approval;
- **Document flow** — creating and signing orders, contracts and documents;
- **Security** — preventing unauthorized access and ensuring the security of the System;
- **Technical support** — resolving user issues;
- **Notifications** — sending important messages and system news.

The System does not use personal data for advertising or commercial purposes.

5. Push notifications

The System may send the user push notifications in the following cases:

- When a reporting deadline is approaching;
- When a new document arrives for signature or the status of a document changes;
- In case of important changes related to attendance or working time;
- In case of warnings related to account security;
- For important system messages and news.

The user has the right to disable notifications at any time through the device or system settings.

6. Data storage and protection

6.1 Storage period

The user's data is stored throughout the period during which they are in an employment relationship with the organization. After the employment relationship ends, the data is stored

for the archiving periods established by law, after which it is deleted or transferred to the archive in the established manner.

6.2 Security measures

We take the following measures to protect user data:

- Use of SSL/TLS encryption technology when transmitting data;
- Protection of passwords using one-way hashing algorithms;
- Restricted access to data through role-based access rights;
- Restriction and control of server access;
- Audit logs that record significant actions within the System;
- Regular creation of database backups;
- Conducting regular security audits.

6.3 Storage location

All data is stored securely on servers located within the territory of the Republic of Uzbekistan. The processing of data is carried out in full compliance with the requirements of the Law of the Republic of Uzbekistan «On Personal Data» No. ZRU-547 (2 July 2019, new edition No. ZRU-683 dated 21 April 2021).

Within the framework of this law, the Company acts as a data operator and assumes the following obligations:

- To process data only for the established purposes;
- Not to transfer data to third parties without the user's consent;
- To take all necessary technical and organizational measures for data security;
- To delete or modify data at the user's request in the cases established by law.

7. Data breach

If unauthorized access to user data or a data breach occurs, we act as follows:

- Within 72 hours of detecting the breach, an internal investigation is carried out;
- Affected users are notified within 5 business days via email or push notification;
- Information is provided on the cause, scale and measures taken regarding the breach;
- Necessary changes are made to the System to prevent recurring breaches.

8. Third-party links

The System may sometimes contain links to external websites or services. These external resources are not managed by the Company, and the Company assumes no responsibility for them. Before following an external link, we recommend reading the privacy policy of the relevant service.

9. Sharing data with third parties

We do not share the user's personal data with any third party, organization or person for commercial purposes. Data may only be provided in the following cases:

- **At the request of the law** — on the basis of an official request from the courts or law-enforcement bodies of the Republic of Uzbekistan;

- **With the user's consent** — when the user's written consent is available;
- **Within the organization** — between authorized employees, within the scope of performing official duties.

10. Children's privacy

The HRM PRO system is not intended for persons under 18 years of age and is used only by adult employees of the organization. We do not knowingly collect data from users under 18. If such a case is detected, the relevant data is deleted immediately.

11. User rights

In accordance with the Law of the Republic of Uzbekistan «On Personal Data» No. ZRU-547, you have the following rights:

- **Right of access** — to view your data at any time;
- **Right to rectification** — to update and correct inaccurate data;
- **Right to erasure** — to request the deletion of your data in the cases established by law;
- **Withdrawal of consent** — to withdraw consent to data processing within the limits of the law;
- **Right to complain** — to apply to the authorized body for data protection.

To exercise these rights, the user may contact the organization's HR department or the system administrator.

12. Changes to the Privacy Policy

We reserve the right to update this Privacy Policy from time to time. When significant changes are made, users are notified through the System or by email. The updated policy takes effect from the date of its publication.

13. Contact

For any questions, suggestions or complaints regarding the Privacy Policy, please contact us:

TERMS OF USE

Last updated: May 2026

Effective date: May 2026

1. Introduction and acceptance

These Terms of Use apply to the HRM PRO human resources management information system (hereinafter the «System»), developed by «Uzbekistan Railways» JSC (hereinafter the «Company»).

By accessing, registering in, or using the System, you are deemed to have fully read, understood and unconditionally agreed to these Terms of Use. If you do not agree to these terms, please stop using the System immediately.

2. Scope of users

The HRM PRO system is intended only for the officially registered employees of «Uzbekistan Railways» JSC and its organizations. Public registration is not provided for in the System.

To obtain the right to use the System, one must:

- Be an official employee of the organization;
- Be entered into the System by an authorized person (administrator);
- Be granted access rights corresponding to one's position and duties.

Attempts by unauthorized persons to access the System may result in liability under the law.

3. Account registration and security

3.1 Account creation

User accounts are created and managed by the administrator. Each account is assigned access rights corresponding to the user's position. When creating an account, complete and accurate data must be entered; incorrect data may result in the account being blocked or deleted.

3.2 Password management and user responsibility

The security of the System largely depends on how carefully the user keeps their own password. For this reason, compliance with the following rules is mandatory:

- **Initial password.** To log in to the System for the first time, each user is provided with a login and a temporary (initial) password by the administrator.
- **Mandatory password change.** When logging in to the System for the first time, the user must change the initial password to a new, strong password known only to them. Setting (creating) the password is entirely the user's own responsibility.
- **Strong password requirements.** It is recommended that the password consist of at least 8 characters and include uppercase and lowercase letters, numbers and special characters. The use of simple, easily guessable passwords is prohibited.
- **Regular password renewal.** For security purposes, the user should regularly renew the password (recommended — every 90 days) and change it in a timely manner.

- **Keeping the password confidential.** The password is strictly confidential. Telling it to other persons, writing it down, keeping it in a visible place or sharing it with third parties is strictly prohibited.
- **Full responsibility.** All responsibility for setting, keeping confidential, timely changing and protecting the password rests with the user. The user is personally responsible for all actions performed in the System through their account.
- **Liability for damage.** The Company and the system developer shall not be liable for any damage or unauthorized actions arising from the password being carelessly kept, disclosed or given to an outside person.
- **In case of suspicion.** If the user notices that the password has become known to others or suspects unauthorized access to the account, they must immediately change the password and notify the administrator.
- **Logging out.** After finishing work or before moving away from the device, especially when using a shared or someone else's device, the user must fully log out of the System.
- **Password recovery.** If the password is forgotten, it is reset through the recovery function. Setting the new password and its subsequent protection again rest with the user.

4. Rules for using the System

During the use of the System, the user is prohibited from the following actions:

- Attempting unauthorized access to the System or to other users' accounts;
- Carrying out actions that damage the operation of the System;
- Entering false or misleading data;
- Using the System for personal or commercial purposes without authorization;
- Attempting to access data beyond one's authority;
- Actions that damage the reputation of the Company and the organization.

Accounts of users who violate these rules may be blocked or deleted without warning.

5. Data entered by the user

The user is responsible for all data and documents they enter into the System. The user warrants that:

- The entered data is correct and accurate;
- The data does not contradict the law;
- It does not violate the rights of other persons;
- Data constituting confidential information or state secrets is not entered without authorization.

The Company reserves the right to verify data on the basis of a legal requirement or an instruction from the relevant authorities.

6. System services and functions

The Company provides the following services:

- Registering employees and maintaining personal cards;
- Automatically calculating working time and attendance;

- Electronically preparing reports and multi-stage approval;
- Creating, signing and archiving documents;
- Statistical and analytical data through the dashboard;
- Notifying via push notifications.

The Company reserves the right to change, suspend or update the composition of the services without prior warning.

7. System updates

The Company regularly updates the System to ensure its correct and secure operation. Web-system updates are carried out automatically on the server side. If a mobile application is available, the user must install updates as soon as possible. The Company is not responsible for problems arising in an outdated version and reserves the right to discontinue support for older versions (notice of this is given at least 14 days in advance).

8. Warranty and service level

The Company guarantees the following service level:

- **System uptime** — the System is ensured to operate for at least 95% of the time per year;
- **Technical works** — users are notified of planned technical works at least 24 hours in advance;
- **Resolving malfunctions** — critical malfunctions are addressed within 24 hours of detection;
- **Support** — technical support requests are reviewed within 2 business days.

9. The System is provided free of charge

The HRM PRO system is provided to the organization's employees free of charge as a corporate tool. No payment is required from employees to use the System.

10. Liability

The Company assumes liability in the following cases:

- **Technical malfunctions** — where operations were not performed or were delayed due to a server or system error;
- **Data loss** — where data was lost due to the Company's fault;
- **Security breach** — where the protective measures taken by the Company were insufficient.

However, the Company is not liable in the following cases:

- Consequences arising from the user's failure to protect their own password or account data;
- Problems arising from the user's own error or negligence;
- The entry of incorrect data by the user;
- Interruption of the internet connection or device malfunction;
- Problems arising in force-majeure situations (see Section 11).

11. Force-majeure situations

The Company is not liable for service interruptions arising in the following uncontrollable situations:

- Natural disasters — earthquakes, floods, storms and others;
- War, terrorist attacks or civil unrest;
- Restriction of the internet or services by state authorities;
- Interruption of the power supply or internet infrastructure;
- Malfunctions of third-party service providers.

When a force-majeure situation occurs, the Company notifies users as soon as possible, and once the problem is resolved, the service is fully restored.

12. Intellectual property

The System, its design, code, logo and all its components are the intellectual property of «Uzbekistan Railways» JSC and are protected by the Law of the Republic of Uzbekistan «On Copyright and Related Rights» No. ZRU-42 (20 July 2006).

The user is not entitled to:

- Copy, distribute or sell the System or its parts;
- Modify or reverse-engineer the source code of the System;
- Use the Company's logo or brand without authorization.

13. Account blocking and termination

The Company has the right to block or delete a user's account in the following cases:

- Violation of the Terms of Use;
- Employees dismissed from the organization;
- Accounts inactive for a long period (6 months or more);
- At the request of the Company or on the instruction of the organization's management.

After an account is deleted, all data is deleted or transferred to the archive within the periods established in the Privacy Policy.

14. Amendments

The Company reserves the right to update these Terms of Use from time to time. When significant changes are made, users are notified through an in-system notification or by email. The updated terms take effect from the date of their publication. Continued use of the System is accepted as agreement to the new terms.

15. Applicable law

These Terms of Use are governed in accordance with the legislation of the Republic of Uzbekistan. In the event of disputes, the parties shall first endeavor to resolve them through negotiations. If negotiations do not produce a result, the dispute is resolved through the courts of the Republic of Uzbekistan.

16. Contact
